FREIGHT FORWARDING MANAGEMENT SYSTEM

Comprehensive Operational User Manual & Verification Guide Book

Web Portal: https://freightproject.vercel.app | Built for Daily Freight Forwarding Operations

System Overview & Core Philosophy

- Job-Centric Architecture: Har shipment/job central record hoti hai.
- Everything attaches to the Job Number: Customer, Shipper, Containers, Charges, Profit, Documents.
- Real-time Profit Formula: PROFIT = TOTAL SELLING REVENUE - TOTAL BUYING COST.
- Direct manual modification of profit is strictly prohibited for security integrity.
- Built strictly according to Software Requirements & Development Blueprint.

1. Web Portal & System Login Credentials

Live URL: https://freightproject.vercel.app

System mein secure role-based login screen mojood hai. Kisi bhi device (Mobile, Laptop, Tablet) se website open karein aur mandarja zail credentials se login karein:

Pre-configured User Login Accounts

1. Administrator: Username: admin Password: admin123 (Full System Access & Delete)
2. Operations: Username: ops Password: ops123 (Shipments, Containers & Documents)
3. Accounts: Username: accounts Password: accounts123(Buying/Selling Charges & Profit)
4. Sales: Username: sales Password: sales123 (Customer Masters & Selling Rates)
5. Management: Username: management Password: management123(KPI Dashboard & Profit Reports)

* Note: Login screen par neeche "Quick 1-Click Role Login" buttons bhi hain jahan 1-click se login ho jata hai.

2. Master Data Kahan Aur Kese Add Karein? (Step-by-Step)

Section 9 of Requirements Blueprint

Shipment banane se pehle Masters mein data hona zaroori hai taake naye job mein unhein select kiya ja sakay:

A. Customer Master (Parties / Clients)

Left Menu se "Customers Master" par click karein. Upar "+ Add New Record" button dabayein:

- Field 1: Customer Name (e.g. Atlas Logistics International)
- Field 2: NTN / STRN (e.g. 1234567-8 / STRN-9988)
- Field 3: Contact Person, Phone & Email
- Field 4: Payment Terms (e.g. 30 Days Net, Advance)
- Field 5: Credit Limit (e.g. PKR 5,000,000)

B. Shipper Master (Origin Exporters / Factory)

Left Menu se "Shippers Master" par click karein. "+ Add New Record" par click karke Shipper Name (e.g. Al-Karam Textile Mills), Phone, aur City darj karein.

C. Consignee Master (Destination Receivers / Importers)

Left Menu se "Consignees Master" par click karein. Foreign buyer name (e.g. EuroTex Fashion GmbH, Hamburg), Email aur City save karein.

D. Vendor Master (Shipping Lines & Port Terminals)

Left Menu se "Vendors Master" par click karein. Shipping Lines (Maersk Line, Hapag-Lloyd) aur Terminals (QICT, KICT, Customs Agent) add karein.

E. Ports Master (POL & POD Routes)

Left Menu se "Ports Master" par click karein. Port Code (e.g. PKKHI, AEDXB, DEHAM), Name (Port Qasim, Jebel Ali) aur Type (SEA / AIR) add karein.

3. Nayi Shipment / Job File Kese Add Karein? (Detailed Guide)

Section 2 & 6.2 of Requirements Blueprint

Top Right par neelay rang ke "+ New Job" button par click karein. Nayi shipment modal khulay ga:

Shipment Creation Steps (Mandatory Fields)

Step 1: Date, Mode (Sea/Air/Road) aur Job Type (Export/Import) select karein.

Step 2: Customer, Shipper aur Consignee ko dropdown se select karein.

Step 3: MBL (Master Bill of Lading), HBL (House B/L) aur Booking Number darj karein.

Step 4: Vessel Name, Voyage Number, POL (Port of Loading) aur POD (Port of Discharge) chunein.

Step 5: Commodity / Cargo Description (e.g. 100% Cotton Garments) aur Weight/CBM likhein.

Step 6: "Create Job File" dabayein. Auto Job Number (e.g. JOB-2026-004) generate ho jayega!

4. Container Grid, Buying/Selling Charges & Auto Profit

Section 3 & 7 of Requirements Blueprint

Naya Job banne ke baad ya Job Register se kisi bhi job par click karne se uski "Complete Job File" khul jati hai:

A. Container Details Grid (Tab 2)

Container Type (20 FT, 40 FT, 40 HC, 45 HC, LCL/CBM), Container Number, Quantity, CBM aur Gross Weight darj karein. Multiple containers ke rows add/delete kiye ja sakte hain.

B. Multi-Charge Costing Model (Tab 3)

System single amount par munhasir nahi hai, balki multiple cost aur revenue charge lines support karta hai:

- Buying Charges (Vendor Costs): Ocean Freight, THC, Documentation, Customs clearance. Har line mein Vendor, Rate, Qty, Currency aur Ex Rate enter karein.
- Selling Charges (Client Revenue): Client ko bill kiye gaye freight aur local charges enter karein.

Automatic Profit Calculation Rule (Section 3)

• FORMULA: PROFIT = TOTAL SELLING REVENUE - TOTAL BUYING COST

• MARGIN % = (PROFIT / TOTAL SELLING) * 100

• Auto Recalculation: Kisi bhi charge ke tabdeel hote hi Profit foran live update hota hai.

• Tamper Protection: Normal user profit ko manually edit nahi kar sakta.

5. 9-Stage Job Workflow Lifecycle & Profit Lock

Section 8 & 16 of Requirements Blueprint

Har Job File ke top par 9-stage visual stepper hai:
NEW -> BOOKED -> DOCUMENTATION -> IN TRANSIT -> ARRIVED -> DELIVERED -> INVOICED -> COST COMPLETED -> CLOSED

Profit Lock Feature: Jab job "CLOSED" status par muntaqil hota hai, to tamam buying/selling charges aur profit lock ho jate hain taake ghair-mutaliqa tabdeeli na ho sakay. Reopen karne ke liye Administrator role darkar hota hai.

6. Smart Operational Warnings & Alerts

Section 16 & 20 of Requirements Blueprint

System operational ghaltiyan rokne ke liye automatic alerts deta hai:

- 1. Duplicate MBL/HBL Alert: Agar koi bill number pehle se kisi job mein darj ho to foran warning aati hai.
- 2. Missing Cost Alert: Agar selling revenue darj ho magar buying cost PKR 0 ho to alert flag lag jata hai.
- 3. Low Margin Warning: Agar job ka profit margin 10% se kam ho to peela alert trigger hota hai.

7. Reports & Excel/PDF Exporting

Section 11 & 12 of Requirements Blueprint

Left Menu se "Reports & Profitability" par click karein:

- 1. Job-wise Profitability Register (Complete shipment-wise profit breakdown)
- 2. Customer-wise Profit Summary (Customer account profitability analysis)
- 3. Trade Lane / Route Profitability (POL -> POD route performance)
- 1-Click Excel Export: "Excel Export" button dabate hi asli structured .xlsx spreadsheet download ho jati hai.
- 1-Click PDF Export: "PDF Export" button dabate hi formatted audit PDF download ho jati hai.
- Individual Job File PDF: Job File ke andar "Print / PDF Job File" button se single shipment ka mukammal print nikalta hai.

8. Demo Data Khatam Karke Asli Entry Kese Shuru Karein?

Zero-Error Testing Process

Clean Slate / Fresh Start Instructions

1. Live site kholein: https://freightproject.vercel.app/
2. "Jobs / Shipments" register page par jayein.
3. Top right par "Clear Demo Data" (Trash icon) button dabayein aur OK karein.
4. Sara sample data foran clear ho jayega aur register 0 ho jayega.
5. Ab "+ Add New Job" daba kar apni asli shipments ki entry start karein!
6. Data us shakhs ke computer / browser mein hamesha safe aur save rahega.
